TRADEGATE® gains more customers in France

Tradegate AG Wertpapierhandelsbank announces that ProCapital, a French security services provider for online banks, brokers, private banks and asset managers, has decided to connect to the electronic trading system TRADEGATE®. The decision came following an in-depth study, begun in 2006, of a whole range of alternative trading places.

Fortuneo, France's second largest online broker with 111 000 clients and 2 500 000 orders executed in 2007, will be the first participant to make TRADEGATE®'s services available to its customers. As is usual on TRADEGATE®, trading takes place with nil brokerage from 8 am to 10 pm.

Through its partnership with TRADEGATE®, ProCapital can offer its clients the transparency required by MiFID and the best execution of orders for private investors.

About TRADEGATE®

TRADEGATE® is an electronic trading platform tailored to the needs of private investors. In France it currently offers all CAC-40 and SBF-120 stocks for trading between 8 am and 10 pm. More pre and post trading information can be found at www.tradegate.de.
